

Certificate of factory production control

226-2017

In compliance with the Minister of Economic Affairs and Communications Regulation No. 49 from 26.07.2013 and the Minister of Economic Affairs and Infrastructure Regulation No. 74 from 22.09.2014, with subsequent amendments, it is determined that

Betoonimeister AS

(registration no. 11070630, Mäepealse 2, 12618 Tallinn)

In **Männiku-2** production base, located in Männiku village, Saku parish, Harju county, produced

concrete

for structures cast in situ, precast structures, and structural precast products for buildings and civil engineering structures,
is submitted by the manufacturer to the initial type-testing, a factory production control and to the further testing of samples taken at the factory in accordance with a prescribed test plan.

The accredited certification body

Technical Center of Estonian Roads Ltd. (AS Teede Tehnokeskus)

has performed the initial inspection of the factory and of the factory production control and performs the continuous surveillance of the factory production control.

This certificate attests that all provisions concerning the attestation of factory production control described in the standard

EVS-EN 206:2014+A1:2016

were applied.

The certificate was first issued on 22 June 2017 and will remain valid until 22 June 2020 as long as the conditions laid down in the technical specification in reference or the manufacturing conditions or the factory production control are not modified significantly. This translation to english was issued on 29 September 2017.

The certificate is attached to the register of Technical Center of Estonian Roads Ltd. Certificate does not entitle to CE-marking of the product.
